

Safe Medication Disposal

Prescription medication plays an important role in treating certain conditions. Unused or expired medications should be properly disposed of to avoid harm. For example, pain medication (opioids) can be very effective for treating pain, but prolonged use or misuse can lead to addiction, accidental poisoning or overdose.

900,000

Americans misuse prescription stimulants every month

25%

of teens report taking prescription medications from family without permission

4.9 million

people who misused opioids obtained them from a friend, relative or home medicine cabinet

Proper disposal of unused medications saves lives.

WEBSTER COUNTY

Safe Home Disposal

Medication disposal packets are available at your local pharmacy to support safe disposal of unused medications at home. Scan the QR codes for instructional videos!

DisposeRx®

- 1) Remove prescription label, open bottle and fill 2/3 with water.
- 2) Empty packet of DisposeRx® into the bottle, replace cap.
- 3) Shake for 30 seconds then throw bottle in trash.
